```java
4    // Read only region start
5    class UserMainCode
6    {
7
8        public int getCodeThroughStrings(String input1){
9            // Read only region end
10           String word[]=input1.split(" ");
11           int sum=0;
12           for(int i=0;i<word.length;i++)
13           {
14               sum+=word[i].length();
15           }
16           return (1+(sum-1)%9);
17       }
18   }
```
